How much decision di team can check?

Adrian Dunkley | 2026-11-15

Di note compare how much check di team promise wid how much dem can finish before action. One example show weh happen when staff only have a set number of hour.

Di note compare how much check di team promise wid how much dem can finish before action. One example show weh happen when staff only have a set number of hour.

How dem do di work

When a AI pilot need human approval, write down how much case yuh expect an how much minute each one tek. Check weh happen pon reporting day, when staff pon leave or when a specialist haffi handle a case. Report planned hour an how much check finish before action.

Weh di example show

Inna one example, di team plan fi check 60% a di decision weh AI handle. Wid 650 hour available dem finish check pon bout 33%. Di model count check weh finish too late or miss di assumption weh matter fi approval.

How fi use it an weh limit it have

Bring one week a case arrival an approval record to di next pilot review. Compare di check weh finish wid weh yuh plan. If di gap get wider, cut di number a case weh AI handle or give qualified staff more time. Di linked model show di result.

Suos dem
